

Science Songs and Raps

The Atoms Family (Science Version)

Tune of Addams Family

Chorus:

They are so small.
(snap, snap)
They're round like a ball.
(snap, snap)
They make up the air.
They're everywhere.
Can't see them at all.
(snap, snap)

First Verse:

They're tiny and they're teeny,
Much smaller than a beeny
They never can be seeny,
The Atoms Family.

Second Verse:

Together they make gases,
And liquids like molasses,
And all the solid masses,
The Atoms Family

(Chorus)

Third Verse:

Neutrons can be found,
Where protons hang around;
Electrons they surround
The Atoms Family

Water Cycle Song

Sang to the tune of She'll Be Coming around the Mountain

Oh, the water moves in a cycle, yes it does.
The water moves in a cycle, yes it does.
It goes up as evaporation.
It forms clouds of condensation;
Falls back as precipitation, yes it does.

The water seeps into the ground, yes it does.
The water rolls off the mountain, yes it does.
It collects in lakes and rivers,
Oh, that water cycle delivers!
The water moves in a cycle, yes it does!

Perimeter Song

To find a shape's perimeter, perimeter,
perimeter
To find a shape's perimeter, just add all the
sides

Cause rectangle area, yes rectangle area,
Is one side times the other,
And area you'll find.

Heat Rap

Written by a K.L. (former student)

Heat comes from sunshine,
Like during our playtime.

Heat comes from friction,
And that's no fiction.

It also comes from burning,
This is what we are learning.

When molecules move really fast,
They can turn the liquid into gas.

When they slow down, it's also nice,
Because they turn the liquid into ice!
